The following quotes are information directly from the Agenda 21 playbook. They show a direct tie between Plan Maryland and Agenda 21. Agenda 21 is nothing more than a sugar-coated environmental plan that is intended to lead to a marxist society, leaving no one with private property rights and ultimately no freedom. When reading the first two quotes I provide, if you take the words "by Agenda 21" and "and adopt a local Agenda 21", you will think you are reading directly from the Plan Maryland manual. So I quote, Agenda 21 Section III Chptr. 28 paragraph 1, "Because so many of the problems and solutions being addressed by Agenda 21 have their roots in local activities, the participation and cooperation of local authorities will be a determining factor fulfilling its objectives. Local authorities construct, operate and maintain economic, social and environmental infrastructure, oversee planning processes, establish local environmental policies and regulations, and assist in implementing national and sub-national environmental policies. As the level of governance closest to the people, they play a vital role in educating, mobilizing and responding to the public to promote sustainable development."

Agenda 21 Section III Chptr. 28 paragraph 3, "Each local authority should enter into a dialogue with its citizens, local organizations and private enterprises and adopt "a local Agenda 21."

Even more disturbing and perhaps more damning proof that Plan Maryland is following the playbook of Agenda 21 and shows absolutely that there is no local interest but only top down decision making from the United Nations, is this quote from Agenda 21 Section III Chptr. 28 paragraph 4, "partnerships should be fostered among relevant organs and organizations such as UNDP, the United Nations Centre for Human Settlements and UNEP, the World Bank, regional banks, the International Union of Local Authorities, the World Association of the Major Metropolises, Summit of Great Cities of the World, the United Towns Organization and other relevant partners with a view to mobilizing increased international support for local authority programs." It goes on to say that the means of implementation will be provided by grant money or concessional terms. We all know what happens when cities and states take grant money to accomplish goals. They come with strings attached.

Plan Maryland has no interest in responsible growth patterns, but instead its only interest is to comply with the United Nations, which is unconstitutional and wishes to accomplish a utopia of marxist rule. I am absolutely oppose. Please read the Agenda 21 manual and educate yourself. Read the whole thing.
